Company Profile

Ozze Surgical is Australia's leading Supplier of Medical, Dental and Surgical Instruments. It originally founded in 2007, with its high-quality instruments – but we don't rest on our laurels. Ozze Surgical continues to evolve its offerings in high-quality and innovative surgical solutions including some of the famous brands. Our extensive Instrument portfolio provides the breadth and depth across all surgical specialties. With a wide range of instruments available.

While headquartered in Hobart Australia, we have a global reach and operate new product development, manufacturing, distribution and sourcing facilities in Australia, Germany, US, China, Pakistan and India. Our engineers sitting in these countries whom we collaborate with, in order to get the finest products in hand.

At Ozze Surgical®, we maintain a rich legacy of trusted brands, quality, innovation, and customer service which is supporting all surgical specialties and sites of care. In surgery, we know what is at stake, and that is why our products are built with craftsmanship, innovation and attention to detail. We create products and solutions so healthcare professionals can trust to consistently and perform to the highest of standards.

We use pure German grade stainless steel and other raw materials to manufacture our top quality instruments and we are proud that our customers and their patients trust us to provide them with high quality surgical instruments while scrupulously adhering to the laws and regulations that govern our industry and business.

We have adopted all the essential code of ethics to ensure that we engage with healthcare professionals in a fully compliant and ethical manner. This Code is part of our effective, ongoing compliance program.

At Ozze Surgical®, the most important factor is innovation which is at the core of everything we do. We regularly collaborate with caregivers to develop and commercialize ideas that have a meaningful impact on patient care. Many of Ozze Surgical's product innovations have come directly from practicing clinicians. We collaborate with our customers to identify and solve problems they face in clinical practice. We pride ourselves on bringing the best solution forward. So please give us a chance to prove and fulfil our commitments we made to you. We are happy to provide some free samples of our innovative and modern instruments.

Dear customer send us an email or speak to us directly, regarding your free samples today. We do make customise Surgical and dental instruments or any other medical device if you have in your mind.

Thank You Reading Our Profile Ozze Surgical Australia

Ozze Surgical Australia

Our Mission

Make impossible to possible by Elevating Surgery for life

Our Visions

Our collaborative initiative and efforts will help to save more lives on the planet. Ozze Surgical is confident to play an important role in every Surgical Procedure Worldwide to increase the life saving possibilities.

Our Values / Trust

The important beginning and Foundation of Every Interaction.

Passion

We have the motivation to Win

Excellence

An extra ordinary Approach to do everything, because teamwork excellency is impossible without teamwork.

Innovation

Changing the medical world with new innovative ways.

Table Of Contents

Scheren Scissors

Oberflächenbeschreibung	Surface Description	SC 1 - SC 4

Mikro-Federscheren Micro Spring Scissors

STREAMLINE

durch den geschwungenen Schluss verfängt sich der Faden nicht mehr, sondern gleitet über die Oberfläche.

weniger Reparatur anfällig

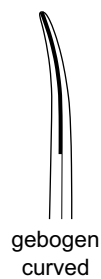

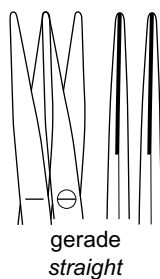

because of the curved lock design the suture does not get caught and slides over the surface.

less prone to repairs

Ligaturscheren Ligature Scissors

Speziell zum Schneiden von Nahtmaterial:

Schneiden mit aufgeschweißtem Hartmetall für erhöhte Standzeit

fein gezahntes Blatt verhindert ein Herausrutschen des Nahtmaterials

weit auslaufender Schluss verhindert ein Einklemmen oder Verfangen des Nahtmaterials weit herausgestellte Griffenden für optimierte Handhabung

Especially for the cutting of suture material:

blades with welded hard metal for extended lifetime fine serrated blade prevents the slipping of suture material

smoothly widening lock design prevents the suture material from getting caught in the parts of scissors exposed handles for optimized handling

Nadelhalter-Profil Needle Holder Tread

TC

OZZE Medical TC Nadelhalter mit diamant-geschliffenem Profil

Für die OZZE Medical Nadelhalter werden nur Nadelhalterplatten mit diamant-geschliffenem Pyramidenprofil verwendet.

OZZE Medical TC Nadelhalter entsprechen höchsten Ansprüchen:

präzise Ausführung und hervorragende Qualität
optimale Abstimmung des Nadelhalters und der

TC-Einlage auf den Verwendungszweck
grazile Nadelhalter für feinste Arbeiten,
stabile Nadelhalter für größere Nadeln.

sichere und präzise Sperre, abgestimmt auf die
Gesamtstärke des Nadelhalters.

Nur ein diamant-geschliffenes Nadelhalterprofil
garantiert:

die hohe Präzision der eingeschliffenen Pyramidenstruktur

das homogene, tiefgeschliffene Profil der TC-Platten

den sicheren Halt der Nadel oder des Nahtmaterials.

hohe Profil-Formbeständigkeit, Härte und Verschleißfestigkeit.

OZZE Medical TC Needle Holders with diamond-cut tread

For the TC needle holders OZZE Medical uses only diamond-cut TC inserts with pyramidal tread.

OZZE Medical TC Needle Holders meet the highest requirements:

*precise design and excellent quality
optimal matching of the needle holder and the TC inserts to the application purpose
slim needle holders for delicate applications,
solid needle holders for larger needles
firm and precise ratchet corresponding to the design of the needle holder.*

*Only a diamond-cut needle holder tread guarantees:
a high precision of the pyramidal structure of the tread*

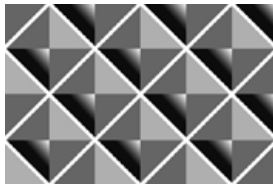

homogeneous and deep tread of the TC inserts

firm holding of the needle or of the suturing material

high deformation resistance, hardness and wear resistance even of the most delicate tread.

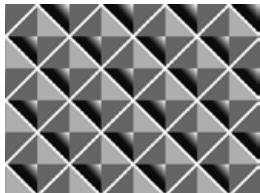

Nadelhalter-Profil Needle Holder Tread

Gipssäge, komplett mit Staubsauger, bestehend aus:

Plaster saw, complete with vacuum cleaner consisting of:

OZ-6220-51

- 1 Gipssäge, oszillierend (OZ-6220-20 inkl. OZ-6220-83 und OZ-6220-85)
- 1 Plaster saw, oscillating (OZ-6220-20 incl. OZ-6220-83 and OZ-6220-85)
- 1 Sauger (OZ-6220-60)
- 1 Vacuum cleaner (OZ-6220-60)
- 1 Schlauch (RZ6220-62)
- 1 Tube (RZ6220-62)
- 1 Schlauchhalter (RZ6220-70)
- 1 Hose clamp (RZ6220-70)
- 1 Absaugglocke (RZ6220-68)
- 1 Dust removal unit (RZ6220-68)
- 1 Adapterkabel (RZ6220-73)
- 1 Adaptercable (RZ6220-73)
- 1 Werkzeug (RZ6220-71)
- 1 Tool (RZ6220-71)

Staubsauger ohne Zubehör

Vacuum cleaner without accessories

OZ-6220-60

Optional:

- Aufhängung mit Griff, höhenverstellbar (RZ6220-69), nur für OZ-6220-20 und OZ-6220-22 geeignet - Magnetische Ablage (RZ6220-72)

Optional:

- Hanging kit with handle, height adjustable (RZ6220-69), suitable only for OZ-6220-20 and 6220-22 - Magnetic placement (RZ6220-72)

Meißel und Osteotome Chisels and Osteotomes

Instrumente mit **Propylux** Griffen

Ein hochstabiles Thermoplast mit wesentlich besseren Eigenschaften als das oft verwendete Ferrozell:

Exzellente Resistenz gegen Säuren und Laugen, daher hygienisch unbedenklicher als Ferrozell Hohe Formstabilität auch nach Hunderten von

Steri-Zyklen

Hohe Festigkeit auch bei extremer Beanspruchung

Hohe Farbbeständigkeit

Enorme Reduzierung von Reparaturen

Zugelassen bei der FDA

Geeignet für alle Sterilisationsverfahren

Instruments with **Propylux** Handles

A highly resistant thermoplastic having much better characteristics than the often used Ferrozell:

Excellent resistance against acids and leaches, therefore much safer than Ferrozell from the hygiene point of view

High form stability even after hundreds of sterilisation cycles

High solidity even when exposed to extreme loads

Highly colour-fast

Tremendously reduced need of repair

FDA approved

Suitable for all sterilisation procedures

Meißel und Osteotome Chisels and Osteotomes

Instrumente mit **Propylux** Griffen

Ein hochstabiles Thermoplast mit wesentlich besseren Eigenschaften als das oft verwendete Ferrozell:

- Exzellente Resistenz gegen Säuren und Laugen, daher hygienisch unbedenklicher als Ferrozell
- Hohe Formstabilität auch nach Hunderten von Steri-Zyklen
- Hohe Festigkeit auch bei extremer Beanspruchung
- Hohe Farbbeständigkeit
- Enorme Reduzierung von Reparaturen
- Zugelassen bei der FDA
- Geeignet für alle Sterilisationsverfahren

Instruments with **Propylux** Handles

A highly resistant thermoplastic having much better characteristics than the often used Ferrozell:

- Excellent resistance against acids and leaches, therefore much safer than Ferrozell from the hygiene point of view
- High form stability even after hundreds of sterilisation cycles
- High solidity even when exposed to extreme loads
- Highly colour-fast
- Tremendously reduced need of repair
- FDA approved
- Suitable for all sterilisation procedures

Bipolare Scheren Bipolar Scissors

Allgemein

Merkmale unserer bipolaren Scheren:

Die Stromzufuhr erfolgt über eine Steckverbindung an nur einem Griff der Schere, die Handhabung während des OP's wird dadurch extrem erleichtert.

RUDOLF Bipolare Scheren ermöglichen das Schneiden und Präparieren bei gleichzeitiger Koagulation.

Unterschiedliche Arbeitslängen und zwei Versionen (Standard und schlank) erlauben den Einsatz für eine Vielzahl von Anwendungen.

Die spezielle Konstruktion macht sie besonders reparaturfreundlich.

Die Scherenschrauben dienen der Stromführung von einem auf das andere Scherenblatt, die Scherenblätter mit Voll-Keramik-Einlage können voneinander getrennt und nachgeschärft werden.

General information

Features of our bipolar scissors:

The power is supplied by means of a plug-in construction to one ring only. This simplifies handling during the operation considerably.

RUDOLF bipolar scissors enable cutting and dissection with simultaneous bipolar coagulation.

Various working length and two versions (standard and slim) allow the scissors to be used for a large number of applications.

The special construction ensures that the scissors are easy to repair.

The screws conduct the current from one blade to the other, the blades with a solid ceramic insert can be separated for re-sharpening.

Bipolare Pinzetten Bipolar Forceps

Allgemein

Merkmale unserer bipolaren Pinzetten:

- Lieferbar mit Flachstecker, auf Anfrage auch mit 2-Pin-Stecker (US-Standard).
- Präzise schließende Arbeitsenden gewährleisten ein sicheres und schonendes Arbeiten. Die schlanke und feine Formgebung garantieren ein sicheres Arbeiten auch in besonders delikaten Einsatzbereichen bzw. an schwer zugänglichen Stellen.
- Die breite, geriefte Grifffläche ermöglicht eine sichere Handhabung.
- Die bewährte und äußerst beständige Isolationsbeschichtung gewährleistet die Sicherheit des Instrumentes.
- Unser Kunststoff-Sicherheitsstecker garantiert eine glatte Steckverbindung und damit sicheren elektrischen Kontakt.

NON-STICK Pinzetten:

NON-STICK Pinzetten verhindern das Verkleben des koagulierten Gewebes mit der Pinzettenspitze. Dafür sorgen spezielle polierte Edelmetallspitzen mit einer exzellenten Wärmeleitfähigkeit. Diese Antihafteigenschaften bleiben auch nach einem evtl. Nachpolieren erhalten, da die gesamten Pinzettenspitzen aus Edelmetall hergestellt sind und es sich nicht nur um eine Beschichtung handelt.

General information

Features of our bipolar forceps:

- Available with flat plug, on demand also with 2-pin-plug (US-Standard).
- The precise closing of the jaws ensures safe and gentle working.
- The slim and delicate design grants safe working in extremely delicate areas or in hard-to-reach places.
- The broad, rifeled surface of the handle ensures safe handling.
- The well proven and extremely durable isolation coating grants the safeness of the instrument.
- Our plastic-safety plug grants a smooth plugging and therefore a safe electric contact.

NON-STICK Forceps:

The NON-STICK forceps prevents the sticking of coagulated tissue on the forceps tips. This is possible due to specially polished tips made of precious metal having an excellent heat conductance. These anti-adhesion properties are not lost even after a possible re-polishing, due to the fact that the complete tip of the forceps is made of precious metal and it is not only a coating.

Hintermann Distractors

The Hintermann Distractor is used in foot and ankle surgery for bone distraction as an alternative to Lamina spreaders. The instrument can be locked and applies distraction across two K-wires placed on either side of a joint.

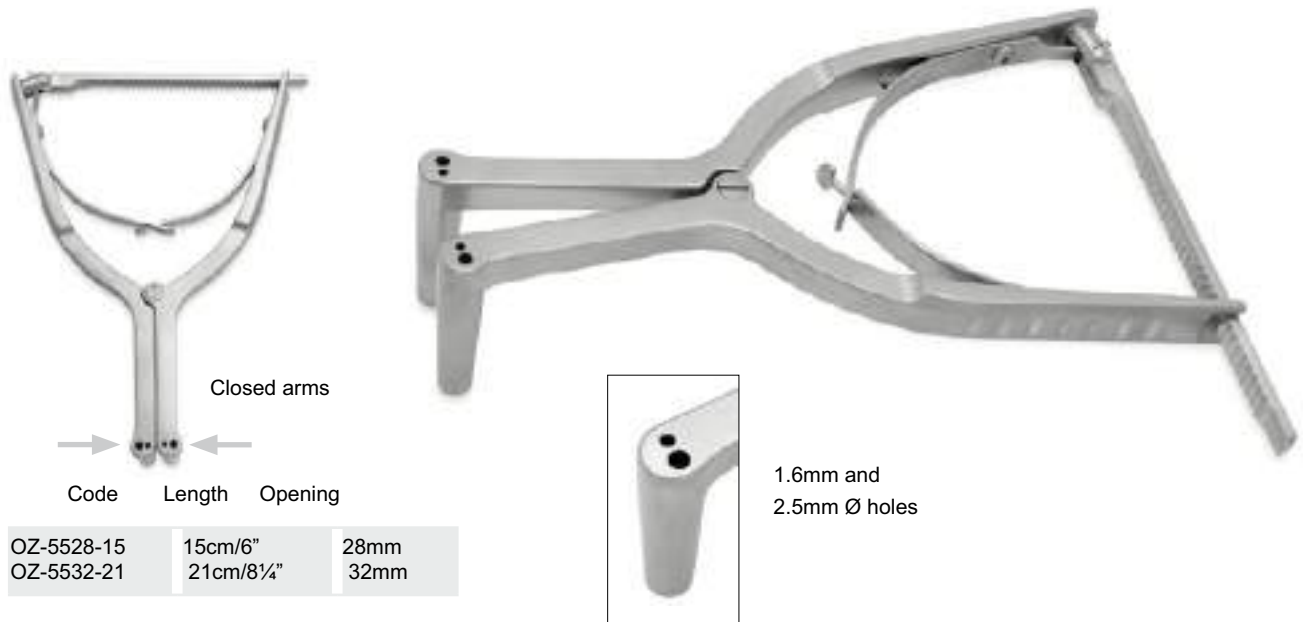

The spreader is then distracted, and locked when the required distance between the two bone fragments is reached.

Two K-wires (either 1.6 or 2.5mm Ø) are introduced into the correct holes in the spreading arms, and penetrate the bone at appropriate position into each of the two bone fragments to be distracted.

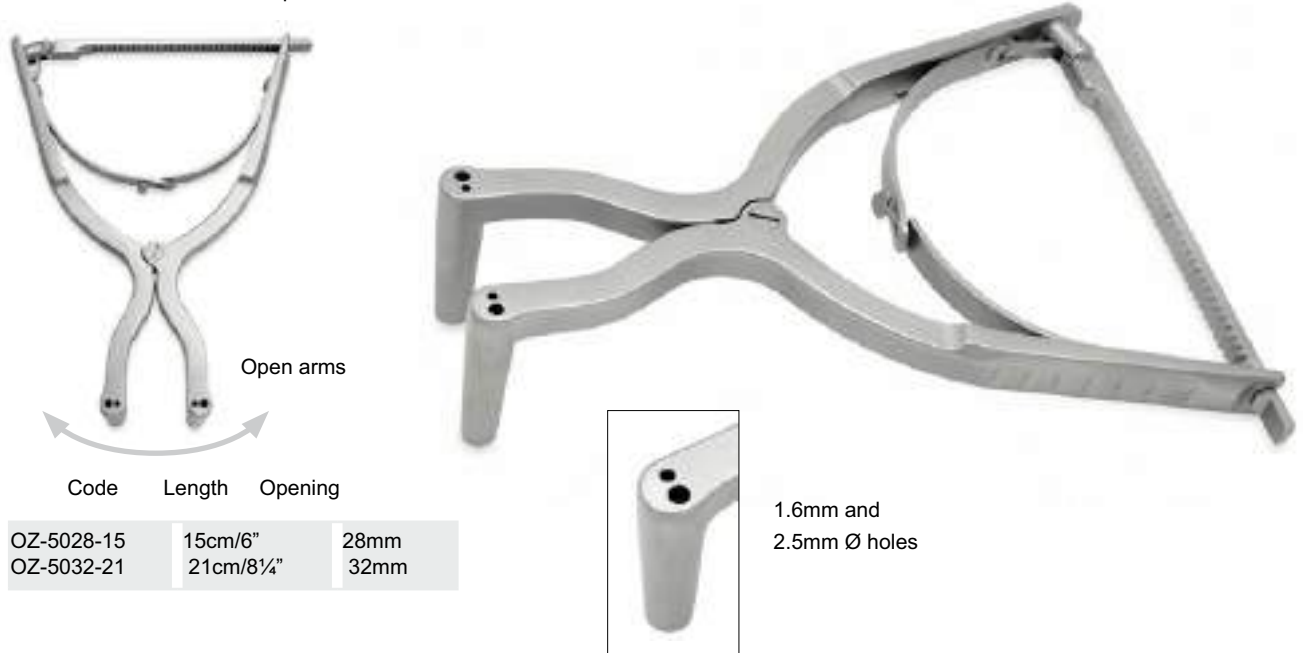

The Hintermann offers flexible positioning with the advantage of not interfering with the procedure.

These distractors are available in two different sizes (15cm or 21cm), and with closed or outspread arms, allowing them to fit different indications.

Hintermann Distractor with closed arms

Hintermann Distractor with open arms - for wider distraction

Charnley Pin Retractor

Complete set with:

- T-handle introducer
- Pair of pins with chains

OZ-1100-00

OZ-1101-00 T-handle only

Pair of pins with chain only

OZ-1102-00

One pin, or sometimes two, is driven into the bone of the superior lip of the acetabulum, to stake back the capsule to give a clear view of the superior lip of the acetabulum. The nerve supply to the tensor fasciae femoris is preserved in this exposure by restricting dissection in the cleft in front of the gluteus medius, but this restricts exposure. By using pins to stake back the abductor muscles, a good exposure of the acetabulum can be obtained, and at the same time the nerve supply to tensor fasciae femoris can be preserved.

The short pins do not obstruct the surgeon's hand in access to the acetabulum. The chain is a safety device to prevent the pins being left in situ.

Micro Fracture Chondro-Picks

Mercian offers a complete set of Micro Fracture Chondro-Picks for treatment of cartilage defects on large and medium joints.

- All instruments feature an ergonomic carbon fibre handle with impact protection for use with the specially designed mallet.
- 5 different tip angles give the surgeon full flexibility in Micro Fracture surgery.
- Hardened stainless steel ensures a long life-time of each Pick.
