COMPANY PROFILE

Ozze Surgical is Australia's leading Supplier of Medical, Dental and Surgical Instruments. It originally founded in 2007, with its high-quality instruments – but we don't rest on our laurels. Ozze Surgical continues to evolve its offerings in high-quality and innovative surgical solutions including some of the famous brands. Our extensive Instrument portfolio provides the breadth and depth across all surgical specialties. With a wide range of instruments available.

While headquartered in Hobart Australia, we have a global reach and operate new product development, manufacturing, distribution and sourcing facilities in Australia, Germany, US, China, Pakistan and India. Our engineers sitting in these countries whom we collaborate with, in order to get the finest products in hand.

At Ozze Surgical®, we maintain a rich legacy of trusted brands, quality, innovation, and customer service which is supporting all surgical specialties and sites of care. In surgery, we know what is at stake, and that is why our products are built with craftsmanship, innovation and attention to detail. We create products and solutions so healthcare professionals can trust to consistently and perform to the highest of standards.

We use pure German grade stainless steel and other raw materials to manufacture our top quality instruments and we are proud that our customers and their patients trust us to provide them with high quality surgical instruments while scrupulously adhering to the laws and regulations that govern our industry and business.

We have adopted all the essential code of ethics to ensure that we engage with healthcare professionals in a fully compliant and ethical manner. This Code is part of our effective, ongoing compliance program.

At Ozze Surgical®, the most important factor is innovation which is at the core of everything we do. We regularly collaborate with caregivers to develop and commercialize ideas that have a meaningful impact on patient care. Many of Ozze Surgical's product innovations have come directly from practicing clinicians. We collaborate with our customers to identify and solve problems they face in clinical practice. We pride ourselves on bringing the best solution forward. So please give us a chance to prove and fulfill our commitments we made to you. We are happy to provide some free samples of our innovative and modern instruments.

Dear customer send us an email or speak to us directly, regarding your free samples today. We do make customise Surgical and dental instruments or any other medical device if you have in your mind.
